Based on number of deals announced in 2011-2016 valued at \$500 million or less. Internet and Advertising is defined by Bloomberg.

We completed more than 75 transactions in the last 36 months, including some of the largest and most important deals in the marketing, media, and technology industries. These transactions have ranged from strategic sales, private equity recaps, and divestitures to growth, mezzanine, and alternative financings. Industry expertise served us well, as we worked across our broad banking universe on engagements in digital advertising, marketing technology, information services, digital media, eCommerce, software, and tech-enabled services, among other areas, with both B2B and B2C-focused businesses. We also advised clients across various verticals, including healthcare, automotive, financial services, and travel, among others.

As a result of our deal volume, we have current and ongoing access to a broad range of strategic buyers, investors, and debt financing sources and have significant insight into their thinking regarding strategic needs, investment themes, valuations, and terms. We would welcome the opportunity to discuss your business and your strategic objectives. Please let us know if we can be helpful in any way, as you consider a sale, merger, acquisition, or raising capital for your company.
